## **RING (ROUSE KENT AWARD FOR PUBLIC ART)**

Ideas for this piece come from my interest in prehistoric earthworks and Mediaeval Dewponds, some of which can be found locally in Kingswood. It consists of a circular bank with a deep concave centre which often fills with water. The deer use it to drink.

COMMISSION: Stour Valley Arts. Challock. Kent UK.

MATERIALS: Earth, water.

DIMENSIONS: 150 x 800 x 500 cm.
